

THARINDA RAJAPAKSHA

Software Engineer

PROFILE

I am a final year undergraduate in the Bachelor of Science (Honors) in Information Technology specialized in Software Engineering degree program, at Sri Lanka Institute of Information Technology, Malabe.

I am a hardworking individual who likes to work as a team, face new challenges, solve problems, and gain knowledge, experience and skills on new technologies and modern trends in software engineering.

I look for opportunities to learn and grow by making positive contributions to enhance the performance of the company I am working.

WORK EXPERIENCE

IFS - Trainee Software Developer (Internship)

Nov 1, 2019 - Oct 31, 2020

Went through a comprehensive training on IFS customer support processes by the RnD group, Agile methodologies for software development, source code management and version controlling with Apache Subversion (TortoiseSVN) and Git (Sourcetree, TortoiseGit and BitBucket), project management and issue tracking using Jira, following proper industry practices and guidelines related to software development and working in highly dynamic team culture.

Learned to design, develop, test, and implement IFS Applications product and its related technologies for both the Windows client (IFS Enterprise Explorer - IEE) and the web client (IFS Aurena), according to the proper industry practices and guidelines and deliver solutions that are accurate, efficient and of highest quality.
